

# Reliability Discuss (room A)

## Date and Time:

20 December 2022 - All items on the board  
19:04 (UTC+00:00)

## Facilitator:

Dave Stanke

## Attendees:

## Summary:

## Actions:

Join us here - <https://bit.ly/reliability-discuss-a> (Join as a guest)

## Learnings:

## Topics discussed:

Alerting philosophy--how many is too many, what medium do you use and why, and how do you scope the audience for different types of alerts?

Votes: 5

## Comments:

-   
SLOs/error budget burn a good way to prevent noisy alerts  
Likes:1
-   
Page only if urgent AND actionable.  
Likes:1
-   
scope alerts to the job role (e.g., ops, developers, architects, PMs)  
Likes:1
-   
Measure things that matter to customers. Good examples of those are the golden signals

Is platform engineering becoming part of/intersecting with reliability roles/topics?
