Reliability Discuss (Room ?)

Date and Time:
21 February 2023 - All items on the board
18:36 (UTC+00:00)

Facilitator:
Steve McGhee

Attendees:
sal, Ingo, Adan, Luca Lanziani, Mynor, KB, Aron, Shea Stewart, Krishna Modi, steve guest, Hamid, Hamid

Summary:

Actions:

Learnings:

Topics discussed:

On SLO, if I have one SLO for Availability and one for Latency, each has "its" Error Budget. How do you deal with the combination, or you treat them completely separate ?
Votes: 7

Comments:
- Steve McGhee
  learn from both! but how are they related? that's trickier.
- Ingo
  so, would you still allow one to burn if the other is already consumed ?
- Steve McGhee
  avail more critical, latency more about user experience. treat them separately!
- Steve McGhee
  consider the outcome of violating each SLO

How can you keep SRE team lean yet scale?

Votes: 4

Comments:

What are some ways that business leaders collaborate on the definition of a Service Level Objective?

Votes: 3

Comments:

What is the interaction between the the Security Operations Center (SOC) and the SRE team if any?

Votes: 3

Comments:
- Adan
  There might be common sources
- Adan
  MTTD & MTTR
- Ingo
  SOC perspective "may" reflect a different user experience. Also focusing more on the risk. But many SRE tenets do apply to SOC and Cyber.

Can platform engineering remove need for SRE teams?

Votes: 1

Comments:
- Ingo
  Well, you probably still want to have SRE function for the applications on top of the platform ...

What are some examples you've experienced of monitoring for unintentional 400 errors?

Votes: 1

Comments:

Keeping SREs focused on software engineering is hard, any tricks to keep software development at the center of the mission? (instead of just pushing around configs)

Votes: 1

Topics voted on but not discussed:

How many SRE teams should an organization have?

Votes: 1

Suggested topics with no votes:

Can/should you include dependent services in your error budget?

Votes: 0

Anyone attending SREcon next month ?
